Re-Nomination of A. C. Bates.

The assembly convention to-day re-nominated Mr. Bates by a unanimous vote. In doing so, the convention only followed the lead of the popular sentiment, as no other candidate has been suggested in connection with the office. This is the best compliment which could be paid to the nominee, and the republicans of the city will cheerfully and zealously rally to the action of the convention. Not merely as a local representative has Mr. Bates met the approval of his constituents, but they have evinced their confidence in him as a faithful and earnest supporter of the government in all the measures necessary to prosecute the war successfully against rebellion and treason. Mr. B. will be elected, and the city, state, and government will have an able and reliable representative and advocate.

We shall publish proceedings of the convention, Monday.

Rebel Raid into Pennsylvania.

The rebel cavalry, under Stewart, one hundred in number, with artillery, have penetrated to Chambersburg, Pa. The dispatches say that is of no consequence, but we presume the plundered people of Pennsylvania don't see it in that light. We thought Pennsylvania was safe since the battle of Antietam, but this bold strike rather demoralizes that theory.

The Battle in Kentucky.

The federal forces under Buell achieved a victory over Bragg near Perryville, on Wednesday. It was a hard fought action and the loss was heavy, some 1,500 on our side, and more on the part of the enemy. A large proportion of officers are among the killed and wounded.

The report of a fierce battle and brilliant victory for Buell on Thursday is contradicted.

The Designs of the Anti-War Democrats.

That portion of the democratic party in this state which adopts the Ryan address numbers ten where there is one who is loyal in favor of the war and of sustaining the government. They have the organization of the party and manage all the party machinery. Their organs, the Patriot and the News, are more malignant in their partisan appeals than we have ever known them before. They appear to have forgotten that their country is in danger, and that thirty five thousand Wisconsin men are in the field perilling their lives in the cause of the government. Their passionate appeals are not to aid these soldiers in their dangerous duty, but to get possession of the government again, as they bad it in the days of Buchanan. They care more for the spoils than their country, and appear more anxious to conciliate rebels than to put them down. When this democratic party was last in power in the nation, it was guided and controlled by Jeff Davis and Toombs, and Floyd, and Cobb, and what they intend to do in the future is to restore these men to their old positions. What they mean by the "Union as it was and the constitution as it is," is Jeff Davis and Toombs in the senate, and Floyd and Sillidell in their old places in an anti-war democratic cabinet, under an anti-war democratic president, like Buchanan. For this purpose they took early ground against conciliating the rebels of the south, but as that became unpopular, they cloaked their opposition to the suppression of the rebellion under pretended sentiments of "loyalty," while they oppose the government in all its efforts against the rebels. They profess now to be in favor of putting down the rebels by force, but are against "invading

a state" to accomplish this end. They are in favor of punishing traitors, but it must be done by the civil authority, and not under the war power. The suspension of the writ of *habeas corpus*, when it is to be used to help traitors out of the hands of the government, is opposed by this class of democrats, although it is expressly authorized by the constitution in case of rebellion.

They oppose the confiscation of the property of rebels, and are making war upon the president's proclamation, stigmatizing it as a violation of the constitution and the rights of the slave states, although they are in rebellion and have outlawed themselves from all rights as citizens. Notwithstanding slavery is the cause of the rebellion, and the slaves are the chief support of the rebels, these democrats insist with pertinacity that the rights of slaveholders are still so sacred under the constitution that not one of their slaves shall be made free, while the institution which is their strength and foundation, shall be protected and preserved at the expense of the nation's existence.

With such democrats, animated by such purposes and sentiments, can there be any Union? No, they must be opposed at the polls and prevented from obtaining the slightest control over the affairs of the state or nation. Their triumph at this time since they have made factions war upon the administration, there is no other course left but for loyal men to meet them at the polls and deprive them of all opportunity to aid their "southern brethren" in the halls of congress or in the state legislature.

"Birds of a Feather."

The Monitor, in discharge of the duty it has kindly assumed of running the "union" movement in this county, jumps to the defense of Erastus Green. This is natural. Green has been for the last six years the tool of the democracy to create distraction in the republican party. He has been a candidate in every county convention, and for aught we know in every other convention, for some good office, and regularly failing in every instance, he has as regularly attempted to get up a holding ticket. Now, after being a delegate in the last convention, participating in its nominations, and expressing a special friendship for some of its candidates, meanwhile failing, as usual, to get a nomination himself, he is striking at those very candidates, and stole the position of chairman of the county committee for the purpose of giving more effect to his holding letters than he could otherwise hope for. Of course the Monitor puts him on the back, and tells him he is a nice fellow. We hardly know which to most admire—the *disinterestedness* of the Monitor, or the *patriotism* of Erastus!

TREATING FRIENDS AND FOES ALIKE.

The Nashville Union says that marauding bands are committing great depredations upon not only Union men, but secessionists, in the interior counties of Tennessee. Their sole object is stealing. When a secessionist pleads that he is for the confederacy, they will tell him, "damn the southern confederacy; we want your horses, or your money or clothing." What a shocking state of affairs!

CONSISTENCY—The Monitor is advocating a "union" ticket in this county, and yet assails M. H. Carpenter for his Union speech in this city. It professes loyalty to the government, yet quotes one of the vindictive articles from the London Times against the government, fills up its columns with selections from the Milwaukee News and other secession journals, and publishes and endorses Ryan's address and Seymour's twin-like speech. Ten timid, or constrained by more discreet promptings, to utter its own sentiments, it promulgates them through the pens of other and more open opponents of the measures of the government.

Assembly Convention.

The delegates from the towns of Johnson, Bradford, La Prairie and Clinton met in convention on the 7th inst. for the purpose of nominating a candidate for member of the assembly. W. H. Starks was chosen chairman, and A. A. Keith secretary. When organized they proceeded to ballot, and found quite a number of individuals brought up, and upon the sixth ballot Jacob Fowle, of Bradford, received the nomination. Mr. Fowle being called upon, responded in a few appropriate remarks, thanking the convention, &c.

A district committee was also chosen, viz: Wm. Gardner, D. G. Cheever and A. A. Keith, for the ensuing year. After having some spicy talk from several gentlemen, viz: Sheriff Putnam, Dr. Hunter, Messrs. Wooster, Salmon and Starks upon the merits and demerits of affairs in the state, and of the country generally, the several individuals giving their peculiar views in favor of republicanism, unionism and abolitionism, their duties, &c., the convention adjourned *sine die*.

W. H. STARKS, Ch'n.

A. A. KEITH, Sec'y.

A QUESTION WELL PUT.—The Fond du Lac Commonwealth asks, "why should a loyal man squirm any more because of the promulgation of the war order to make those guilty of disloyal practices subject to martial law, than an honest man need to view of the penalties for stealing? Let him have a loyal heart under his waistcoat, and a loyal tongue in his head, and he can walk through the perils of the disloyal, and fear no evil; but, on the contrary, the rod and staff of Old Abe will comfort him."

ATTORNEY GENERAL JAMES H. HOWE, appointed colonel of the thirty-third regiment, has resigned his civil office. The duty of appointing his successor devolves on the governor. The salary is \$2,000 per annum, which makes it an office worth having.

IMPORTS.—Among the imports of the past week we notice \$250,000 of guns and \$400,000 of indigo. At \$20 per gun, this would make an importation of 22,500 guns. —New York Evening Post.

Last Night's Report.

HARRISBURG, Oct. 10—7:30 P. M.
Gov. Curtin has just received the following dispatch from Col. McClure, at Chambersburg:
"Mercesburg was occupied by Stuart's rebel cavalry to-day, and they are now advancing on Chambersburg. They took horses and all other property they wanted at Mercesburg, offering rebel scrip for it. They did no injury to individual persons that I have heard of. The rebel force is estimated at 5,000. They are certainly advancing on Chambersburg. They have cut the Bedford wire. They are reported as near St. Thomas, about seven miles from here. There is no doubt whatever of their being in Mercesburg. They will certainly give us a call to-night. We had the rumor at 4 o'clock, but it was not credited. We can make no resistance, as it would only exasperate and cause the wanton destruction of property and life."

LATER.
CHAMBERSBURG, Oct. 10—8 P. M.
About fifteen men on horseback are in town, with carbines and a flag of truce. They want to see the principal men of the town. They have a large force about one mile from town, who will enter in an hour.

LATER.
Mr. McClure and Provost Marshal Kimball have just gone two miles from town to meet the rebel commander. Nothing can be done except to surrender. We look for the whole force in half an hour. They crossed the Potomac at Hancock, and came over the country to the Pittsburg bridge. The deposits of the Chambersburg Bank have not been returned from New York since the late raid.

HARRISBURG, Oct. 10—10 P. M.
Governor Curtin is pushing troops up the valley.
A dispatch from Shippensburg confirms the news of the capture of the situation of that territory from Indian depredations, and guarding the overland route, by which the people are furnished with domestic supplies. There is much rejoicing here over the news of the Union victories in Kentucky.

Special to Chicago Tribune.—News items from Corinth, since the army left in pursuit of Price, are scarce. A sergeant of cavalry arrived from the front this morning, but gives little information.
A correspondent writes me from Corinth: "On Sunday morning, at daylight, on the Hatchie, the scouts of the Tennessee cavalry, commanded by Capt. Ford, of Missouri, accompanied by the 5th Ohio, 3d Michigan, 2d Iowa, 7th Illinois, and Tennessee 2d Iowa, started in pursuit of Gen. Home Guards, started in pursuit of Gen. Our troops were again on the march at daylight, coming up with the enemy again at 11 a. m., when our advance again commenced the pursuit. The enemy's rear, pressing them so hard, the confederates were compelled to abandon the train. This was continued until night closed the strife. In the meantime when within about two miles of Davis' bridge, they were met by Hurlbut, who had a sharp engagement with them, turning the enemy back, who then took a southerly course, in the direction of Kosciusko, where they were again attacked in front by our forces and turned towards Ripley, in a southwesterly direction from Kosciusko.
